**SUBJECT:** New policy on inpatient hospital readmissions

AmeriHealth has established a new policy to address reimbursement for inpatient hospital readmissions to the same hospital, or a hospital within the same health system, within three days of discharge from a previous inpatient hospital stay and for a condition directly related to the original inpatient hospital stay. **Effective September 1, 2011**, Claim Payment Policy #00.01.47: Inpatient Hospital Readmissions will be applied to all admissions that are paid on a per-case or per-admission basis.

To view this policy in its entirety, visit [www.amerihealth.com/medpolicy](http://www.amerihealth.com/medpolicy) and enter the policy number in the Search box.

If you have any questions regarding this new policy, please contact your Network Coordinator.

*Note:* In the event your individual hospital/provider contract contains a readmission provision that is different than this policy, such readmission provision will supersede this policy.
