

# QIPS 2025: Adult program

## Cervical Cancer Screenings

Tertiary Focus | Cancer Screenings

### Measure Requirements

- Members ages 21 through 64, as of December 31 of the measurement year (2025), who were recommended for routine cervical cancer screening and had cervical cytology performed during the measurement year (2025) or two years prior to the measurement year (2024 and 2023).
- Members ages 30 through 64, as of December 31 of the measurement year (2025), who were recommended for routine cervical cancer screening and had cervical high-risk human papillomavirus (hrHPV) testing performed during the measurement year (2025) or the four years prior to the measurement year (2024, 2023, 2022, 2021).
- Members ages 30 through 64, as of December 31 of the measurement year (2025), who were recommended for routine cervical cancer screening and had cervical cytology/high-risk human papillomavirus (hrHPV) cotesting during the measurement year (2025) or the four years prior to the measurement year (2024, 2023, 2022, 2021).

### QPM Targets

| Band   | Target Range |
|--------|--------------|
| Band 1 | 80% – 100%   |
| Band 2 | 77% – 79.99% |
| Band 3 | 73% – 76.99% |
| Band 4 | 69% – 72.99% |
| Band 5 | <69%         |

See payment details in section 5 of the QIPS guide.

### Member Requirements

Members who were with a practice for 11 consecutive months within the measurement year (2025) and who were ages 24 through 64 as of December 31 of the measurement year (2025).

### Options to close Care Gaps

- **Option 1:** Claim/encounter submission with appropriate coding of Pap tests or hrHPV during 2025.
- **Option 2:** Claim/encounter submission with appropriate exclusion coding for complete, total, or radical abdominal or vaginal hysterectomy with no residual cervix. Sex assigned at birth (LOINC code 76689-9) of male (LOINC code LA2-8) at any time in the patient's history.

#### Absence of Cervix exclusion codes

|                |  |
|----------------|--|
| <b>Q51.5</b>   | Agenesis and aplasia of cervix                   |
| <b>Z90.710</b> | Acquired absence of both cervix and uterus       |
| <b>Z90.712</b> | Acquired absence of cervix with remaining uterus |
